Says He Will Make a Thorough and Vigorous Campaign of the State.

Says His Determination to Enter the Contest Has Been Reached After Careful Consideration—His Platform to Embody the Principles For Which He Has Fought For Years.

Special to the Journal.

Jacksonville, Fla., Oct. 6.—J. N. C. Stockton tonight authorized the announcement of his candidacy for the United States senate. He will make a thorough and vigorous campaign of the state. His announcement is as follows:

To the People of Florida:

I am a candidate for United States senator from Florida to succeed Senator James P. Tallahassee, whose term expires March 4th, next. My determination to enter this contest has been reached after the most careful consideration from every standpoint. Out of respect for the memory of Governor Broward, and for the further reason that this is a serious matter, I have not acted hastily.

In my platform will be embodied the principles for which I have fought during the past twenty-two years. I am now perfecting plans for the campaign and organization, and when this work is completed the people will hear from me in no uncertain tone.

I assure the people also that if elected to this office I will have no real estate or other business but that of United States senator and no part of my time engaged in any business whatsoever.

J. N. C. STOCKTON.

By Associated Press.

Cincinnati, Oct. 6.—Delegates to the Protestant Episcopal church of America today by a vote of 90 to 22 passed an amendment to the constitution providing for suffragan bishops throughout the dioceses of the church. The amendment was concurred in by the house of bishops before it becomes effective.

Senator La Follette Who is Very Ill

SENATOR LA FOLLETTE

Rochester, Minn., Oct. 6.—Senator Robert La Follette, who was brought to this place to consult specialists, is considered in a very serious condition. The fact that the senator, who recently won a sweeping victory in the state primaries in vindication of his insurgency, has canceled several engagements to speak is regarded as significant, and his friends fear that he will be compelled to submit to an operation, which would seriously interfere with the plans made for his campaign of the state.

TAYLOR IS THE NOMINEE OF TENNESSEANS

United States Senator Heads the Ticket of the Regular Democrats.

No Other Name Was Presented, the Demand Being For Taylor and No One Else—Declare The Issue is Shall Tennessee Be Turned Over to Boss Ruled Republican Machine.

By Associated Press.

Nashville, Tenn., Oct. 6.—United States Senator Robert L. Taylor was nominated for governor by the regular Democratic convention held here tonight, although his senatorial term does not expire until 1912. No other name was presented to the convention, the demand being for Taylor and no one else.

At 7 o'clock Senator Taylor appeared in the convention hall and after receiving an ovation accepted the nomination. The platform adopted declares the liquor question has no place as an issue in a gubernatorial campaign, but should be settled by the legislature, and asserts that the controlling issue in this campaign is "whether Tennessee shall be turned over to the boss-ruled Republican machine in a bargain by public officers of the state and sought to be treated as merchandise for barter and sale between politicians," and declares the plank in the Republican state platform in favor of Confederate pensions to be an acknowledgment by the Republicans that Confederates are not traitors, and the Civil War not a rebellion. Taylor will not resign as senator unless he is elected governor.

LOOKING FOR THE GASOLINE SCHOONER KATE, WHICH IS BELIEVED TO HAVE TRANSPORTED DYNAMITE TO BLOW UP THE TIMES.

By Associated Press.

San Francisco, Oct. 6.—Detectives and others who are making efforts to trail from this end the men who secured dynamite from the Giant Powder works, previous to the destruction of the Los Angeles Times building, have revealed a chain of possibly suspicious circumstances as to the movements of the gasoline schooner Kate, which may serve to connect the vessel with the transportation of the explosive from San Francisco to some southern port, presumably San Pedro.

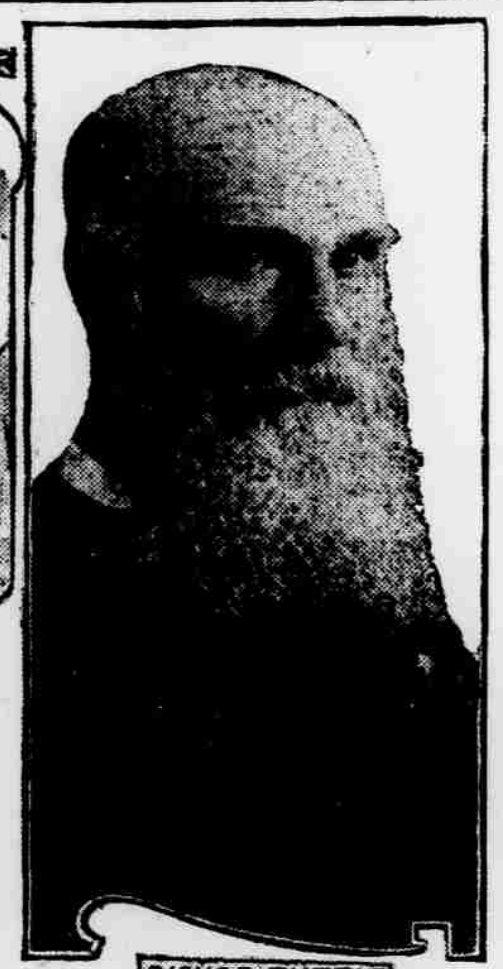

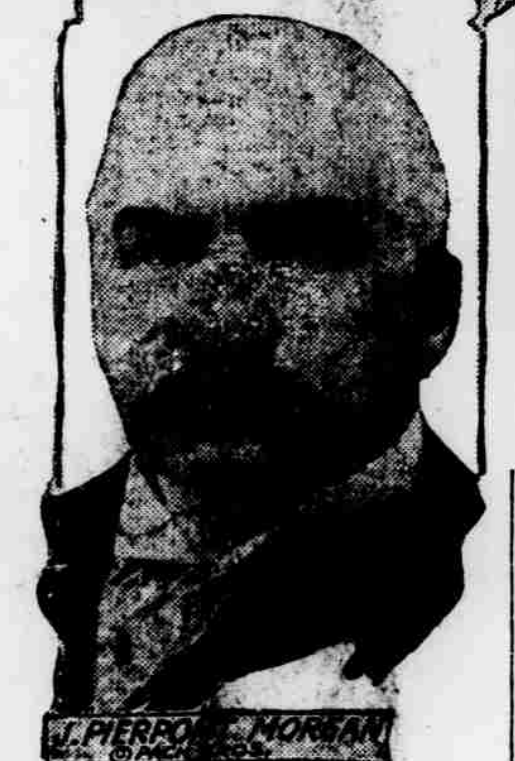

Captain E. J. Burns, of the state launch Governor Gillett, stated to the detectives today that he noted the Kate on September 22 and 23 at anchor off a remote portion of the waterfront in Mission Bay. He also declared that a launch answering to the description of the Peerless or Pastime, the vessel into which the Giant dynamite was loaded, came out from the vicinity of the Kate's anchorage on September 23 as his boat was passing. This was the day on which the dynamite was taken from the works by the Pastime.

The Kate sailed from San Francisco September 25 and has not been seen or heard of since. Her clearance papers show that she was bound for the Gallapagos Islands on a turtle hunt under command of Captain John Osterhaus, owner and navigator.

Premier Teixeira de Sousa and Manuel Fratel, minister of justice, have relinquished direction of affairs of state to provisional President Bragada and his associates in the new republican government.

Last night attacks were made by revolutionists upon houses of prominent royalists, including J. Luciano de Castro, former premier and progressive leader, but representatives of the provisional government soon quelled the popular excitement. It is reported from Setubal, south-east of Lisbon, that the Eleventh infantry regiment has acclaimed the proclamation of the republic. One of the biggest things in the industrial line that is coming to the great Interstate Fair which will be held in Pensacola November 7 to 12, inclusive, is the exhibit that will be made by the International Harvester Company. The company has just closed the contract for a very large amount of space and will show all the workings of agricultural machinery from the cradle to the grave. Every implement known to the growing, reaping and preparing of grain will be shown all working. The seeding of the grain will be shown as well as the making of the flour into crisp biscuit.

ENGINEERS TO INQUIRE INTO ROUTE PLANNED

Army Board Coming to This City on October 21 for This Purpose.

Board is Not Convinced of Necessity of An Inland Waterway From Mobile to Pensacola, But is Coming Here Nevertheless for the Purpose of Hearing Views of Citizens.

Official notices were received yesterday morning by the Chamber of Commerce of the meeting of the board of engineers for rivers and harbors, which will be held in the rooms of the Chamber of Commerce the morning of Friday, October 21. Copies of the notices were posted yesterday at the Osceola Club and at Sol Cahn & Co's, pursuant to the request of the engineer board to have them posted in conspicuous places.

The board of engineers for rivers and harbors is the engineering court of last resort, as it were. The inland waterway route between Pensacola and Mobile, for instance, after being surveyed and estimated by the special board in charge of the survey, was reported to the chief engineer of the army by the surveying, or special board of engineers, and has been in turn referred to the board of engineers for rivers and harbors for their opinion. To get at actual facts of local conditions and at all local arguments in favor of this project, is the special object of the board of engineers in coming here on October 21.

"BIG SAVOIR" ROUTE. The report of the surveying board to the chief engineer recommends that canals be built via Big Lagoon and the "portage" across south Baldwin county, and the surveying engineers recommended canals 7 feet deep and 75 feet wide at the bottom, to cost, it was estimated, the sum of \$432,435. In referring to this recommendation, together with others pending the board of engineers says, in part, in calling the local meeting:

"With the information now before it, the board of engineers for rivers and harbors is not convinced of the necessity or undertaking at the present time the improvements recommended by the special board."

With special reference to the meeting to be held in the Chamber of Commerce on October 21, the notice of meeting says:

PUBLIC INVITED. "All persons interested in the waterway mentioned are invited to be present at the hearing and to submit fully their views in regard to the necessity for the improvements under consideration as given below, and any information bearing upon the question of the selection of suitable channel dimensions to meet the present and the
